Who we are?

AJITA

The manufacturer of customized parts made of ferrous and non-ferrous metals.

Ajita Metals Industries is the business founded in 2016 by Dinesh Kothiya.

Among the many manufacturing companies in Jamnagar, this one stands out.

Why we stand out?

AJITA

In June 2022 Dinesh Kothiya (owner of Ajita) and Malgorzata Bieniaszewska (owner of European company MB Pneumatyka) signed a letter of intent to work together in India.

This Company is the combination of European quality that comes from restrictive automotive standards and Indian efficiency.

What industries we supply to?

AJITA

Automotive

Agriculture

Electrical

Aviation

Electronics

Medical

Why us?

AJITA

- ✓ We operate in accordance with quality norm ISO 9001, however IATF 16949:2015 is also well-known by us
- ✓ We have precise CNC machines (turning, milling) and stamping presses
- ✓ We understand low costs, but mostly, high quality
- ✓ We are present in Europe, Asia and North America

How we support

We get to know your needs

Customized products require an insightful, technical eye. In order to provide solutions tailored to the expectations set before us, we carefully analyze the situation and examine the needs of our clients, paying attention to every detail.

We provide transparent and competitive offer

It is very important for us that you understand each and every part of our offer. There are no hidden costs. We select the optimal production method, so the offer becomes competitive.

We support you on your further journey!

We are with you throughout the whole process of cooperation. We guarantee professional, specialist assistance. We treat the first sales as just the beginning of our fruitful cooperation.

We receive the drawings from you

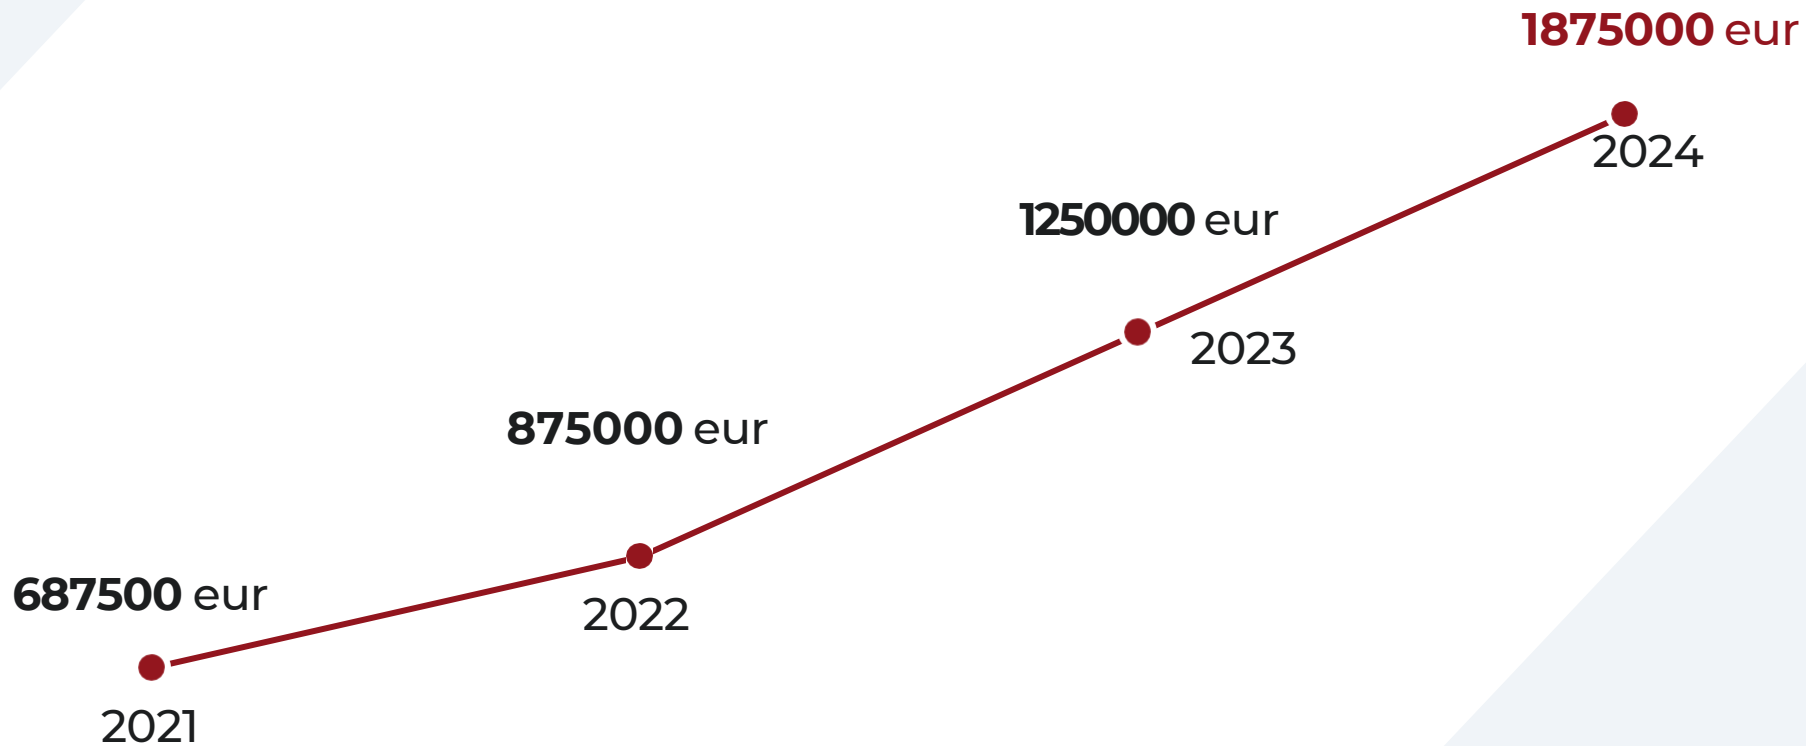

Since we are the company who produces the parts as per your needs, we are open to any challenges customers face us with. The only data we need is the drawing of your parts.

We deliver the samples

To make sure that your requirements are met, we provide the samples before serial production stage. We want to make sure that what we deliver is what you expect.
